

# AN EXTRA SET OF EYES

The Modular Flex Series UVSS  
Shows Every Detail of a  
Vehicle's Underside

**D**ay or night, you won't find a clearer, easier way to inspect the underside of vehicles in real time. The Flex Series Under Vehicle Surveillance System gives you full-color video so you can see every detail. Plus simple installation,

optional license plate recognition, and easy network integration make it the perfect choice for the highest level of security performance. See all the details and options at [www.comm-port.com](http://www.comm-port.com).
