

Seeing Is Believing

From engine block to tailpipe, see every detail

Protect Your Assets Day or Night

- Real-Time Color Video
- Rugged 48-Ton Capacity
- Bright, Low-Heat LED Lighting
- Flexible Configuration of Cameras
- Simple IP Networking
- Modular Construction
- Fast Installation without Construction

FLEX SERIES

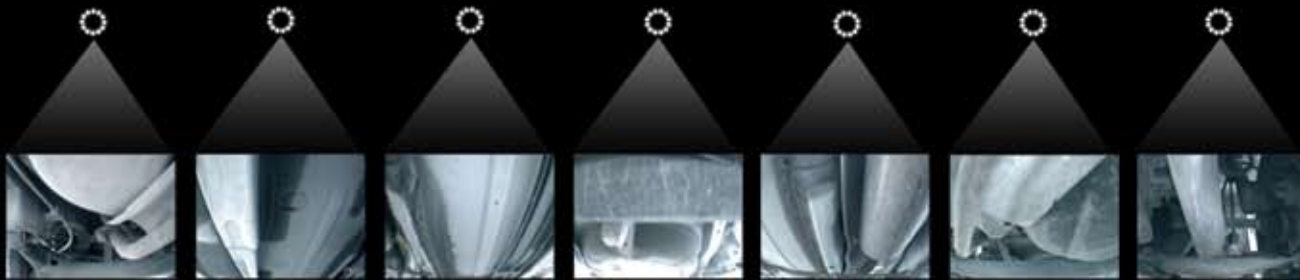

Under Vehicle Surveillance System

Rugged | Modular | Flexible | Affordable

Seeing Is Believing

Flex Series Under Vehicle Surveillance System

Believe It Even in the Dark of Night

An Extra Set of Eyes

Modular

One-foot-wide modular sections—each with or without camera—combine flexibly to create the perfect system

Affordable

More value and more savings in every system

Capable

Integrated camera/LED modules give clear, crisp images

Bright

High-intensity white LEDs yield bright images even in the dark of night

Reliable

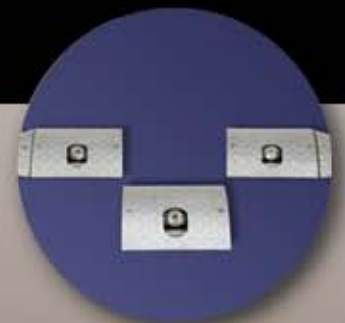

Underwater-rated cameras with scratch-proof sapphire lens, and long-life LEDs rated to 100,000 hours

Strong

Steel construction with a hefty 48-ton capacity

Rugged

Works in extremes of weather

Stop It!

Crash-Test Proven Barriers

The Arrestor

K12 rating: Stops a 15,000-pound truck traveling at 50 mph

Bumpless flush design—barrier raises in 2 seconds

The LightFoot

K4 rating: Stops a 15,000-pound truck traveling at 30 mph

Raises in 2 seconds; flush with road when lowered

The Gater

K12 rating: Stops a 15,000-pound truck traveling at 50 mph

All electric vertical pivot lift beam barrier with full 90° gate opening

The B-Cube

Economical, maintenance-free perimeter security

Basic bollard barrier available in a range of stopping powers

Detect It!

Portable Explosives Detection At The Flip Of A Switch

XPAK Trace Explosive Detector

- Affordable, reliable, robust
- Fast—no warm-up or calibration required
- Fluorimetric detection eliminates complex electronics
- Compact, lightweight, handheld unit

XPAK provides easy viewing of test results within seconds.
