# 10G from ExceLight. Bringing More Value to Light

It's a new dawn in 10G performance and reliability with ExceLight transceivers and lasers. With our range of reach and packages, you can make any optical path shine a little brighter. Tap into 30 years of optical leadership for superior 10G performance, enhanced reliability, lower power consumption, and easier handling. For short-reach through long-reach applications and everything in between, see how we're bringing more value to light at [www.excelight.com](http://www.excelight.com).
