

MAKE THE MOST OF YOUR GARAGE

Most garages are actually the biggest rooms in a home. And most people enter their homes through the garage. Yet, most are cluttered and unusable for their original purpose.

With custom storage, organization, and flooring solutions from The Garage Works, you can utilize the functional space you already have and create a garage that complements your busy lifestyle.

Our goal is your complete satisfaction. We'll consult with you to discuss and design the ideal garage storage system to meet your needs and your budget. Your new garage interior will be constructed using the best, most durable materials at the best price for your family's needs.

From 3-D drawings that show exactly what your new garage will look like, to quality craftsmanship and prompt, professional installation, we'll create a garage you'll be proud to show off to your friends and family.

AFFORDABLE CUSTOM STORAGE SOLUTIONS FOR YOUR LIFESTYLE

Quality Custom Cabinetry

We know every garage is different, and every family has unique storage needs. Whether it's sports gear or a sports car, gardening supplies or lawn tools, we'll help you put everything in its place.

Our garage storage units are made from high-strength industrial particleboard finished with thermo-fused melamine for exceptional strength and durability. This low-pressure laminate will not delaminate, peel, bubble or discolor, and cleaning it is a breeze with any popular household surface cleaner.

To meet your specific storage needs, we can produce any size or shape of cabinet with a broad selection of handles and pulls, heavy-duty, slam-proof European hinges, and fully adjustable shelves. Plus you can choose from laminate, tile, granite, and other materials for your countertops.

New JockLockers™ for the Sports-Minded Family

Exclusive to The Garage Works, our new JockLockers provide loads of storage for your sports gear, with an assortment of hooks and hangers, and an optional heated forced air system to aid in drying wet equipment. Never has it been easier to organize and protect all of your valuable sports gear.

Durable, Attractive Flooring

Complete the beautification of your garage while providing exceptional protection with our tile flooring solutions. We'll test and prepare your existing floor, then apply your choice of tile flooring, which is designed to handle extreme temperatures and resist chemicals commonly found in a garage.

Tile Flooring

Tile garage flooring covers cracks and stains, giving you a clean and durable surface. Create the pattern you want from our Diamond Grip and Perforated tiles—checkerboard, border patterns, you name it!

And tile flooring from The Garage Works will provide lasting beauty and durability, easy maintenance and an extra margin of non-slip safety for your family.

Guaranteed to Perform

Create your new garage with confidence. Our custom cabinet products, including hardware, are guaranteed to be free from defects in materials and workmanship for as long as the original purchaser resides in the property where the cabinets were installed.

About Us

The Garage Works is a family-owned business focused on creating quality custom storage solutions and providing prompt, neat, expert installation. More than 20 years' experience in customer service and a commitment to your complete satisfaction are brought to bear on every project, whether large or small. We'll respect your home as if it were our own.

Owner Craig Consylman is a highly experienced craftsman specializing in garage storage and organization. Personally involved in providing everything

from design to installation, Craig creates garage interiors that accommodate your lifestyle while complementing the style of your home.
